Manager Commentary

Central Bureau Statistics of Indonesia (BPS) announced Mar 2023 inflation at +0.18% mom (vs consensus inflation +0.28%, +0.16% in Feb 2023). On yearly basis, inflation was at +4.97% yoy (vs consensus inflation +5.12%, +5.47% in Feb 2023). Core inflation was printed at +2.94% yoy (vs consensus inflation +3.03%, +3.09% in Feb 2023). The lower inflation was contributed by the lower core inflation and inflation of volatile food group. The BI Board of Governors agreed on 15-16 Mar 2023 to hold the BI 7-Day Reverse Repo Rate at 5.75% and also hold the Deposit Facility (DF) and Lending Facility (LF) rates at 5.00% and 6.50%, respectively. In total, Bank Indonesia had increased their benchmark rate by 225bps up to Jan 2023. This decision for this policy is as front loaded, pre-emptive and forward-looking movement to lower the expectation inflation and to ensure the core inflation back to their target level at 3±1% on 1H 2023. Mr Perry Warjiyo mentioned that the latest rate hike was sufficient to bring the inflation back to their target. Rupiah appreciation against USD by +1.73% from 15,240 at end of February 2023 to 14,977 at end of March 2023. The appreciation of Rupiah was impacted by inflow of foreign investor from Indonesia's bond market and the FED start to slowing down hike FED's Fund Rate. Indonesia's trade balance recorded surplus amounting to USD +5,480mn in Feb 2023 vs previous month surplus USD +3,870mn in Jan 2023. The higher trade surplus was impacted the increment of O&G export by +19% YoY in Feb 2023. Non-oil and gas trade balance in Feb 2023 recorded surplus USD +6,697mn, which was higher than the previous month that recorded trade surplus amounting to USD +5,289mn in Jan 2023. Meanwhile, oil and gas trade balance still recorded deficit to USD -1,220mn in Feb 2023, which was lower than the deficit in Jan 2023 amounting to USD -1,419mn. Indonesia's official reserve assets position amassed USD 145.2billion as of end March 2023, increased from USD 140.3billion as of end February 2023. The increment was impacted by the issuance of government foreign loan withdrawal as well as tax & service receipts.

The JCI ended the month lower at 6,805.28 (-0.55% MoM). Market laggards were GOTO, MDKA, BRPT, SMGR and TOWR as they fell -7.63%, -7.71%, -11.76%, -12.80%, and -11.90% MoM respectively. Global equities posted strong rebound in March as recent Silicon Valley Bank (SVB) and Credit Suisse (CS) collapse resulted in market pricing in less aggressive Fed guidance going forward. The FOMC hiked rates 25bps to 4.75-5% in March as expected but latest Fed statement suggest a more dovish tone with consensus expecting the Fed to start its rate-cut plan as soon as late 2023 following the recent stress development in the US banking system. Domestically in Indonesia the JCI lagged its peers in March as current slowdown in the developed market economic growth is putting pressure towards energy and metals prices, which Indonesia has been benefitting from. Sector wise, the Transportation and Logistic Sector was the worst performing sector during the month, declining 7.58% MoM. Ticker wise, ASSA (Adi Sarana Armada) and TNCA (Trimuda Nuansa Citra) were the laggards, depreciating 25.62% and 24.00% MoM respectively. This was followed by the Technology Sector which dropped 5.29% MoM. Ticker wise, TECH (Indosterling) and AXIO (Tera Data Indonusa) posted 33.33% and 29.89% MoM losses respectively. On the other hand, the best sector during the month was the Energy Sector, which recorded a gain of 0.12% MoM. Ticker wise, CUAN (Petrinda Jaya Kreasi) and PTIS (Indo Straits) were the movers which rose 270.45% and 143.75% MoM respectively.
