In total, Bank Indonesia had increased their benchmark rate by 225bps up to Jan 2023. This decision for this policy is as front loaded, pre-emptive and forward-looking movement to lower the expectation inflation and to ensure the core inflation back to their target level at 3±1% on 1H 2023. Mr Perry Warjiyo mentioned that the latest rate hike was sufficient to bring the inflation back to their target. Rupiah appreciation against USD by +2.11% from 14,977 at end of March 2023 to 14,661 at end of April 2023. The appreciation of Rupiah was impacted by inflow of foreign investor from Indonesia's bond market and the FED start to slowing down hike FED's Fund Rate.
