The JII (Jakarta Islamic Index) ended slightly higher in August at 691.13, appreciating by +0.11% MoM. Large cap stocks such as EXCL, ADRO, PTBA, AKRA, and MNCN contributed to the MoM gain, all of which rose by +10.19%, +10.97%, +14.59%, +19.32%, and +7.27% MoM respectively. Despite the market friendly constitutional court final verdict implying that Jokowi will lead the next government, foreign investors booked an outflow US\$112.4Mn in during the month of August. Investors took profit in anticipation of a cautious 2015 national budget outlook and labor unions demanding a 30% min wage increase should subsidized fuel price hike happens this year. A top priority (fuel hike) in Jokowi's administration. Sector wise, the Mining Sector was the best performing sector this month, rising by +6.46% MoM. PTBA (Tambang Batubara Bukit Asam) and ADRO (Adaro Energy) appreciated by +14.59% and +10.97% MoM respectively. This was followed by the Trading and Distribution Sector that rose +4.28% MoM, supported by AKRA (AKR Corporindo) and MAPI (Mitra Adiperkasa) which appreciated +19.32% and +15.87% MoM respectively. CPO price has dropped below MYR 2,000/ton for the first time in five years as forecasts for a record US harvest of soybeans used to produce alternative oil. Missed expectations on biofuel demand and scaled back El Nino forecasts brought the additional negative sentiment to CPO names as well.

We remain selective in our stock picks focusing names which have an attractive risk/reward profile.
