MANAGER COMMENTARY

Central Bureau Statistics of Indonesia (BPS) announced February's deflation at -0.09% mom (vs consensus -0.16%, +0.51% in Jan 2016) mostly were caused by lower food ingredients, housing, water, electricity also natural gas and fuel prices. On yearly basis, inflation printed at 4.42% YoY (vs consensus 4.36%, 3.14% in Jan 2016). Core inflation printed at +3.62% YoY, unchanged from previous month (vs consensus 3.59%, +3.62% in Jan 2016). In the Board of Governors' Meeting on Feb 18th, 2016, Bank Indonesia cut its reference rate by 25bps to 7%, Lending Facility to 7.5% as well as facility rate (FASBI) to 5%. Rupiah appreciated against USD by +3.26% to 13,395 at end of February compared to previous month 13,846. Trade balance was surplus +0.05bn USD (non-oil and gas surplus +0.16bn, oil and gas deficit -0.11bn USD) in Jan 2016. Export decreased by -20.72% YoY mostly driven from export in natural oil, while imports decreased by -17.15% YoY. FX Reserves increased +2.41bn USD from 102.13bn USD in Jan 2016 to 104.54bn USD in Feb 2016 on the back of offshore inflow to the bond market.

The JCI (Jakarta Index) closed higher in February, gaining +3.38% MoM to close at 4,770.96 for the month. Movers were UNVR, HMSP, ASII, GGRM, and MNCN which rose +21.32%, +6.23%, +5.43%, +9.17%, and +56.30% MoM respectively. Meanwhile the laggards were TLKM, UNTR, SMGR, BBRI and AALI which fell -2.69%, -10.78%, -7.24%, -1.34% and -13.03% MoM respectively. Foreign investment appetite into Indonesian Market rebounded in February, which was driven by better than expected Indonesia's 4Q15 GDP growth of 5.04% YoY. Better government infra spending absorption became the key driver of economic growth and is expected to continue until 1H16. Lower BI rate of 25bps and potential fuel and electricity price cuts in March/April 2016 will give positive impact on people's purchasing power as well as better utilization rates within the manufacturing industry. Risk remains on whether the current government can introduce business friendly policy introduction and implementation. Sector wise, the Consumer Sector was the best performing sector this month, gaining by +9.76% MoM. UNVR (Unilever) and INDF (Indofood) were the movers; appreciating by +21.32% and +13.71% MoM respectively. This was followed by the Mining Sector that posted +6.33% MoM gains, driven by ITMG (Indo Tambang) and MEDC (Medco International) which rose +40.33% and +39.01% MoM respectively. On the flip side, Trading and Distribution Sector was the worst performing sector this month, falling by -2.15% MoM. CMNP (Citra Marga Nusaphala) and WINS (Wintermar Offshore) were the laggards, falling -20.09% and -17.46% MoM respectively.

We opportunistically select sound companies with quality management that offers earnings resiliency and growth going forward.
